

Dear Readers

We are pleased to present our first English newsletter of 2015. This year we are celebrating two decades of consulting business. With our value network management approach and our proprietary instruments and methods, we have successfully supported our clients in optimizing their global value networks during this time.

We are also proud to announce the founding of our US affiliate in White Plains/NY in March.

These two important developments would not have been possible without our loyal clients. We are grateful for your trust in our know-how and methods, our innovative ideas, our insights into international logistics and transport markets and our in-depth intralogistics competency. We support our clients – you – from strategic concept design to successful implementation and ramp up.

To give you an idea of our daily project work, this newsletter contains selected examples of customer projects implemented in 2014.

We would be pleased to receive your feedback, your ideas and proposals on how to keep improving our newsletter.

Please send them to: n.boeke@timconsult.de.

Best regards from Mannheim,

Björn Klippel
Managing Director TIM CONSULT
